

Exercise: Assessing endemic species for the IUCN Red List (70 minutes)

1. Working groups of 3-6 people – group together based on expertise if possible.
2. Select 1-3 **endemic** species from your own examples.
3. Use the flip chart to record your assessment.
4. Use all available resources to help you (**including the Trainers**)

REPORT BACK

Select **one** assessment to present to the workshop.
